

Algebraic Geometry and Related Topics

Tuesday 22nd January 2008

S14 #03-10 (CRA)

Department of Mathematics

National University of Singapore

Programme

Morning Session

Speaker: Nanhua Xi (Institute of Math. CAS, China)
Time: 10.00 – 10.50
Title: Schubert Varieties and Kazhdan-Lusztig polynomials

Speaker: Y. Choi (Yeungnam University, Korea)
Time: 11.00 – 12.00
Title: Inner projections and its applications

Afternoon Session

Speaker: S. Kwak (KAIST, Korea)
Time: 14.00 – 14.50
Title: Geometry and Syzygy under projection

Speaker: Wing Keung To (NUS)
Time: 15.00 – 15.50
Title: Effective Lojasiewicz inequality and stability of bihomogeneous polynomials

Speaker: H. Park (KIAS, Korea)
Time: 16.00 – 16.50
Title: Castelnuovo-Mumford regularity for noncommutative algebras and representations
