*CAP for graduation does not include the project module

Continuation Requirement

A student will be issued a warning for any semester in which his/her CAP falls below 3.00. If in the following semester, the student's CAP again falls below 3.00 but is above 2.50, he/she will be placed on probation.

The candidature of a student may be terminated if he/she obtains the following:

1. A CAP of less than 2.50 for two consecutive semesters;
2. A CAP of less than 3.00 for three consecutive semesters.

CAP for continuation is computed based on all modules read (be it pass or fail).
